**FOUNDED IN**  
**1985**

NEAR AIX-EN-PROVENCE, IPONE MANUFACTURES ENGINE OILS FOR MOTORBIKES AND SCOOTERS. THE NAME IPONE IS INSPIRED BY JAPANESE CULTURE, AND JUDO IN PARTICULAR. THE IPPON, A DECISIVE MOVE THAT, WHEN WELL EXECUTED, ENSURES VICTORY IN COMBAT, SYMBOLISES DETERMINATION AND VICTORY.

SINCE THEN, THE BRAND HAS DEVELOPED NEW PRODUCTS TO MEET THE NEEDS OF RIDERS FOR ROAD, OFF-ROAD AND COMPETITION. IN ADDITION TO LUBRICANTS, IPONE NOW OFFERS MAINTENANCE AND CARE PRODUCT RANGES AND RANKS AMONG THE INDUSTRY LEADERS IN FRANCE.

4

## **A COLLECTION OF ENGINE OILS ALIGNED WITH THE COLOURS OF JUDO BELTS**

IPONE presents its **NEW COLLECTION** of engine oils. A bold design drawn from the heart of our Japanese DNA. A range of products structured according to the judo belt colour system.

**Ready to stand out from the crowd with the new IPONE collection?**

5

# WHY

## WHY USE A TWO-WHEELER-SPECIFIC LUBRICANT?

### 3-in-1 oil

The oil lubricates the engine, the gearbox and the clutch.

### CONSTRAINTS ON TWO-WHEELER LUBRICANTS:

- Higher engine temperatures and rpm
- Greater shearing of the oil film
- Wet clutches require high coefficients of friction

### WHAT IT DOES:

- Reduces friction
- Cools the engine
- Combats corrosion
- Keeps the engine clean

### OIL TYPES:

- 100% synthetic
- Semi-synthetic +
- Semi-synthetic
- Mineral

### API 4 STROKE STANDARD:

It measures the engine's cleanliness, resistance to oxidation and wear protection.

### JASO 4 STROKE STANDARD:

It measures the level of friction.

A high level of friction avoids the risk of slipping and ensures optimal clutch operation.

### JASO 2 STROKE STANDARD:

It measures lubrication power, engine cleanliness and reduction in smoke emissions.

Low friction means lower fuel consumption for dry clutch scooters.

# ***ENGINE RANGE***

***“RIDE WITH  
ATTITUDE”***

THE MOST COMPREHENSIVE RANGE OF ENGINE  
LUBRICANTS ON THE MARKET FOR MOTORBIKES,  
SCOOTERS AND RECREATIONAL VEHICLES.

# ENGINE OILS

**REDISCOVER OUR RANGE OF COMBAT OILS:  
NEW DESIGN, ENHANCED PERFORMANCE.**

- An expressive and powerful manga style
- 5 range levels based on the colours of judo belts
- Japanese-sounding names

The SHOGUN range has been developed with competition in mind. In 2025, as a result of their new formulas, these oils are among the best on the market, offering maximum performance.

### SHOGUN

- 100% synthetic (100% PAO & Ester technology)
- Used in the Red Bull MotoGP Rookies Cup and in the Endurance World Championship (EWC)
- For demanding riders looking for the best performance on track and on the road
- Available for the following viscosity grades: 0W-30 / 5W-40 / 10W-30 / 10W-40 / 10W-50 / 15W-50

### SHOGUN OFF-ROAD

- 100% synthetic (100% PAO & Ester technology)
- Ideal for 4-stroke MX/Enduro bikes
- Available for the following viscosity grades: 10W-30 / 10W-40 / 10W-50

### SHOGUN 2R

- 100% synthetic (100% Ester technology)
- Ideal for 2-stroke MX/Enduro bikes

### KATANA

- 100% synthetic (PAO & Ester technology)
- Excellent engine protection even at full power
- Best engine efficiency at high revs
- Sharper throttle response
- Smooth, fast gear changes
- Ideal for roadsters, trail bikes and sporty GTs
- Available for the following viscosity grades: 5W-40 / 10W-30 / 10W-40 / 10W-50 / 10W-60 / 15W-50

### KATANA

#### OFF-ROAD

- 100% synthetic (PAO & Ester technology)
- Best off-road performance
- Maximum protection under heavy load
- Excellent clutch control
- Sharper throttle response
- Smooth, fast gear changes
- Ideal for cross, enduro and enduro trail bikes
- Available for the following viscosity grades: 10W-40 / 10W-50 / 10W-60

### KATANA

#### HIGH TORQUE

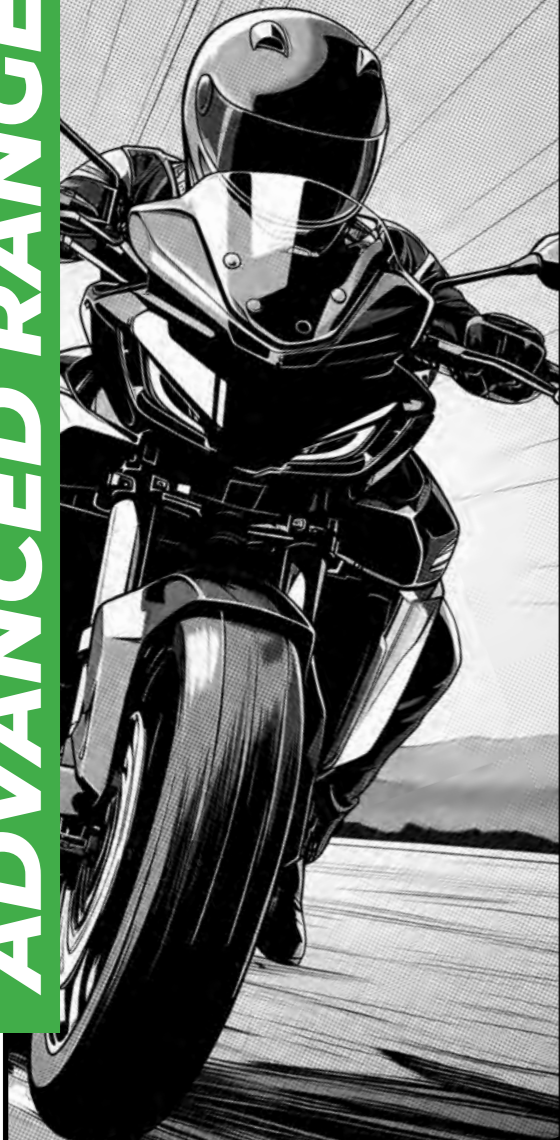

- 100% synthetic (PAO & Ester technology)
- Optimum protection at high temperatures and under very heavy loads
- Dedicated to large cc torque engines
- Promotes a smooth, high-performance driving experience
- Ideal for cruisers
- Available for the following viscosity grades: 15W-50 / 15W-60 / 20W-50

### SAMOURAI

- 100% synthetic (100% Ester technology)
- Optimum performance
- Very effective engine protection, even in the most demanding conditions
- Compatible with separate or premix lubrication engines with carburettor or injector
- Ideal for motocross and enduro race bikes
- Strawberry option available

# ADVANCED RANGE

## R4000

- Semi-synthetic + (Ester technology)
- Long-lasting engine protection
- Extends engine life
- Reduces oil consumption
- Suitable for all engine sizes
- Ideal for riders looking for a reliable, high-performance solution for their bike
- Available for the following viscosity grades: 10W-30 / 10W-40 / 10W-50 / 15W-50 / 20W-50

## ADVANCED

## R2000

- Semi-synthetic +
- Designed for urban riding
- Reduces smoke emissions due to its excellent combustion
- Ideal for small cc bikes
- Compatible with separate or premix lubrication engines with carburettor or injector
- Strawberry option available

# ESSENTIAL RANGE

## ESSENTIAL

## 10.3/10.4 15.5/20.5

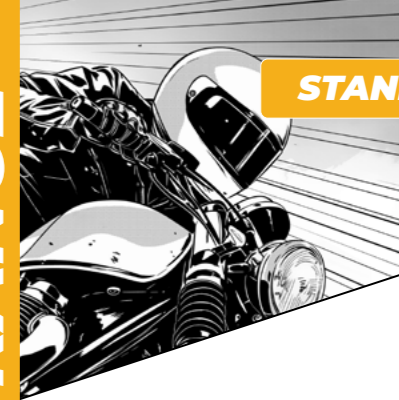

- Semi-synthetic
- Enriched with quality additives
- API SN compliant
- Effective engine protection
- Ideal for bikers looking for a reliable, affordable motor oil
- Available for the following viscosity grades: 10W-30 / 10W-40 / 15W-50 / 20W-50

## SELF OIL

- Semi-synthetic
- Compatible with separate or premix lubrication engines, with a carburettor or injector.
- Optimal lubrication
- Available with the strawberry option

# STANDARD RANGE

## STANDARD

## M4

- Mineral
- API SM compliant
- Effective engine protection
- Ideal for bikers looking for a reliable, affordable motor oil
- Available for viscosity: 20W-50

### KATANA SCOOT

- 100% synthetic (PAO & Ester technology)
- Excellent engine protection even at full power
- Sharper throttle response
- Ideal for sports scooters
- Available for the following viscosity grades: 0W-30 / 5W-40

### SAMOURAI SCOOT

- 100% synthetic (Ester technology)
- Optimum efficiency and high engine protection
- Designed for urban riding
- Reduced smoke emissions due to its excellent combustion
- Compatible with separate or premix lubrication engines with carburettor or injector
- Ideal for 2-stroke scooters
- Strawberry option available

# ADVANCED RANGE

### KATANA ATV

- 100% synthetic (PAO & Ester technology)
- Very high off-road performance
- Maximum protection under heavy load
- Excellent clutch control
- Sharper throttle response
- Smooth, fast gear changes
- Available for the following viscosity grades: 5W-40 / 10W-40 / 15W-50

### R4000 ATV

- Semi-synthetic + (Ester technology)
- Long-lasting engine protection
- Extended engine life
- Reduces oil consumption
- Ideal for those looking for a reliable, high-performance solution for their ATVs
- Available for viscosity grade: 10W-40

## SPORT RANGE

### KATANA SNOW

- 100% synthetic (PAO & Ester technology)
- Very high performance in extreme weather conditions
- Faultless operation down to -45°C, whatever the altitude
- Protects the engine during cold starts
- Sharper revs
- Available in viscosity 0W-40

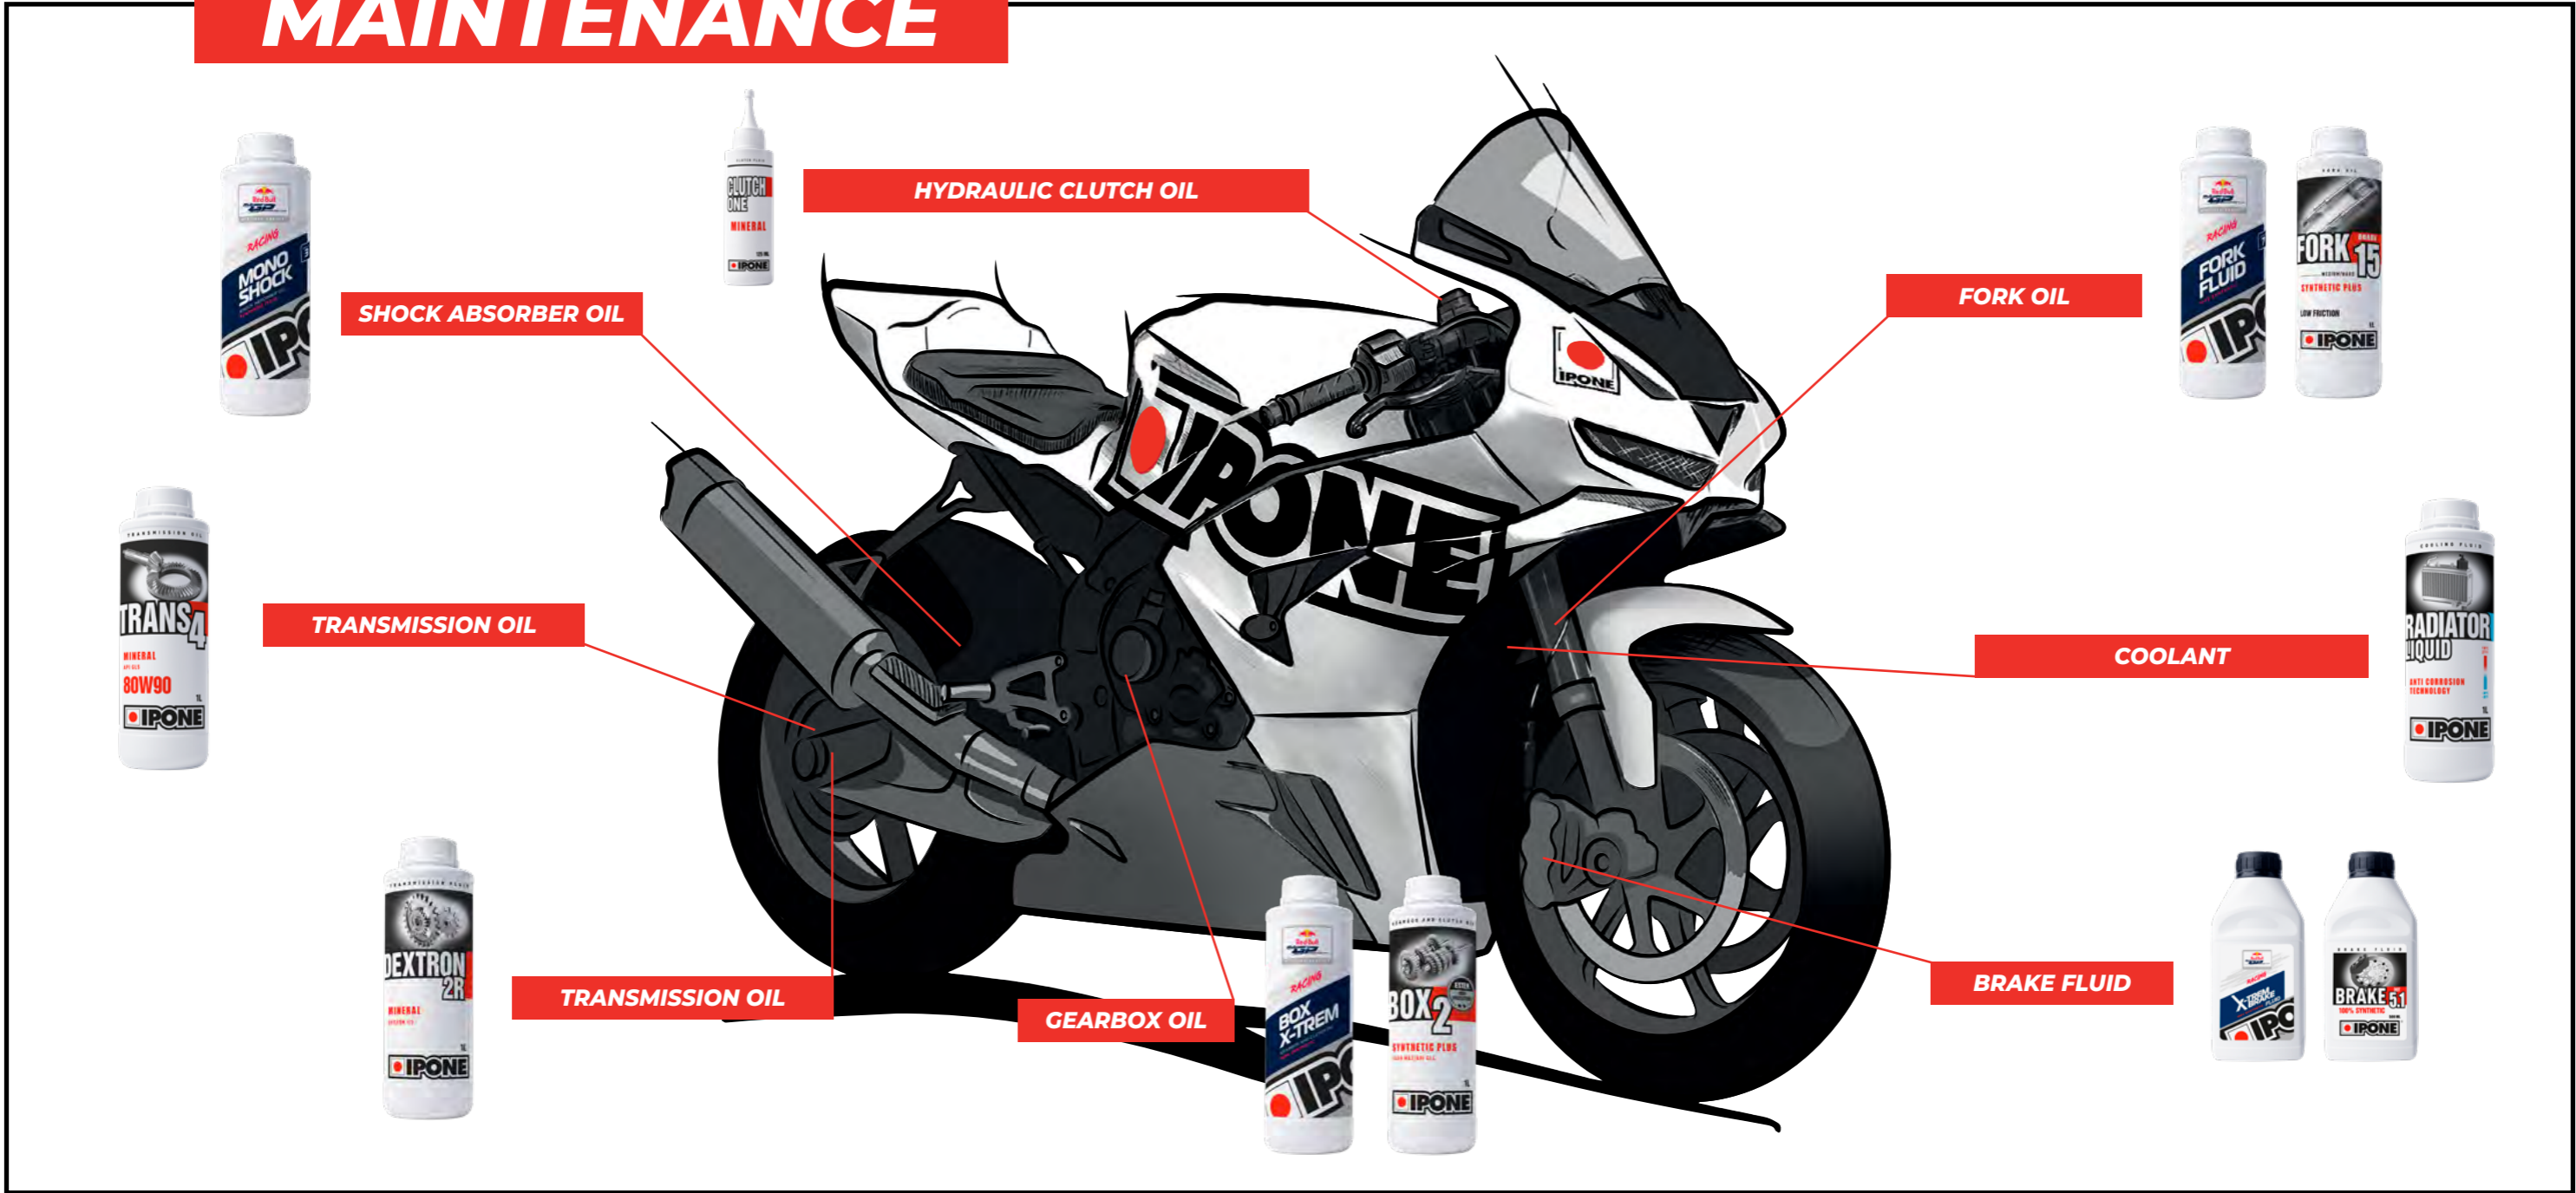

### R2000 SNOW

- Semi-synthetic +
- Protects the engine from negative temperatures
- Reduces smoke emissions
- Optimum engine cleanliness
- Compatible with separate or premix lubrication engines with carburettor or injector
- Available with strawberry scent only

## ADVANCED RANGE

# MAINTENANCE

## BRAKE FLUIDS

### X-TREM BRAKE FLUID

- 100% synthetic
- Formulated for competition
- Used in the Red Bull MotoGP Rookies Cup
- Dry boiling point: 328°C (622°F)
- Maintains power and braking efficiency
- Dot 4 compatible

### BRAKE DOT 4

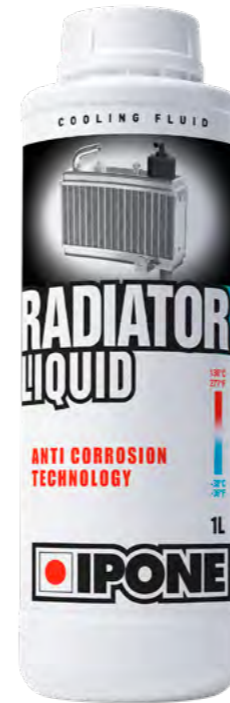

- 100% synthetic
- Guarantees effective, precise and safe braking
- Dry boiling point: 270°C (518°F)
- Compatible with ABS braking systems
- Dot 3 and Dot 4 compatible

### BRAKE DOT 5.1

- 100% synthetic
- Guarantees effective, precise and safe braking
- Dry boiling point: 270°C (518°F)
- Compatible with ABS braking systems
- Dot 3, Dot 4 and Dot 5.1 compatible

## COOLANT

### RADIATOR LIQUID

- Optimum engine cooling
- Anti-freeze protection down to -38°C/-36°F
- Removes deposits
- Anti-corrosion and anti-oxidation
- Blue colour for easy dosing
- OAT (Organic Acid Technology)

## SUSPENSION/SHOCK ABSORBER OIL

### MONOSHOCK FLUID

- Semi-synthetic
- Formulated for shock absorbers subjected to high levels of stress in competition
- Consistent shock absorption
- Resistant to oxidation and corrosion
- Available for grade 3

## SUSPENSION/FORK OILS

### FORK FLUID

- 100% synthetic
- Formulated for inverted telescopic forks subjected to high levels of stress in competition
- Used in the Red Bull MotoGP Rookies Cup
- Maintains its performance at all temperatures
- Protects against wear and corrosion
- For track, motocross and enduro
- Available for grades 3 and 7

### FORK

- Semi-synthetic
- Maintains its performance at all temperatures
- Protects against wear and corrosion
- Available for grades 5-10-15-20-30

## 2-STROKE GEARBOX OILS

### OIL FOR HYDRAULIC CLUTCH CONTROLS

#### CLUTCH ONE

- Mineral
- Ensures progressive, consistent and easy-to-use clutch control
- For road and motocross bikes
- Compatible with seals
- Tube with pouring spout for easy dosing

#### BOX X-TREM

- 100% synthetic
- Formulated for 2-stroke motorbikes for competition, track and off-road use
- Best performance
- Recommended for wet or dry clutches

#### BOX 2

- Semi-synthetic
- Easy shifting with no crunching
- Prevents clutch sticking and slippage
- Makes cold starts easier
- Protects the gearbox
- Ideal for 50cc gearboxes

## TRANSMISSION OILS

#### DEXTRON 2R

- Mineral oil for ATF type automatic transmissions
- Suitable for power, quad differential and axle steering
- Certified compliant with Dexron IID standard
- Optimal lubrication
- Maximum protection
- Shear resistance

#### TRANS 4

- Semi-synthetic or mineral
- Optimal lubrication and protection of mechanical parts such as transmission shafts and universal joints.
- Limits mechanical noise
- Resistant to heavy loads
- Formulated with additives for extreme pressure
- Available for the following viscosity grades: 75W-90 and 80W-140 (semi-synthetic) and 80W-90 (mineral)

#### TRANS SCOOT

- Mineral
- Scooter transmission oil
- Optimal lubrication
- Ensures optimum gear life
- Compatible with seals
- Tube with spout for easy dosing

# CARELINE

## CARELINE RANGE:

**SIMPLICITY AND EFFICIENCY FOR BIKERS.**

*Designed for motorbike maintenance, it offers easy-to-use, ultra high-performance products. Effortlessly clean, protect and polish your machine.*

*This range consists of 5 families*

**CHAIN BIKE ENGINE WHEEL RIDER**

### KITS

#### CHAIN CARE KIT

- Includes:**
- A super-powerful Chain Cleaner
  - X-trem Chain Road long-lasting chain grease (800 km/500 miles)
  - A highly effective chain brush
  - Available in on-road and off-road versions

#### CLEANING KIT

- Includes:**
- Moto Wash multi-surface bike cleaner
  - An ultra-powerful Wheel Cleaner
  - A microfibre mitt for a perfect finish
  - A rim brush for more effective cleaning

#### HELMET KIT

- Includes:**
- Helmet'Out exterior helmet cleaner
  - Helmet'In interior helmet cleaner
  - Visor Rain'Off rain repellent
  - A microfibre wipe

#### ROAD TRIP KIT

- Includes:**
- A waterproof pouch
  - SOS Tyre puncture-repair spray
  - X-trem Chain Road 100 ml long-lasting chain grease (800 km/500 miles)
  - Helmet'Out exterior helmet cleaner
  - A microfibre wipe

## CHAIN MAINTENANCE PRODUCTS

### X-TREM CHAIN ROAD

- Chain grease for road use
- Long-lasting in extreme conditions, up to 800 km/500 miles
- Compatible with all types of O-rings
- Zero fling
- Visible on application

### X-TREM CHAIN OFF-ROAD

- Chain grease for off-road use
- Withstands extreme conditions in motocross and enduro: water, sand, mud or dirt
- Zero fling
- Compatible with all types of O-rings

### CHAIN CLEANER

- Chain degreaser
- Cleans and polishes the chain, making it like new
- Ultra-powerful, precise jet
- Effective against the most stubborn grime
- Compatible with O-rings
- Compatible with all chain types

### BLUE CHAIN / WHITE CHAIN / RED CHAIN

- Lubricates and protects
- Water-resistant
- Anti-corrosion
- Gives the chain an original style
- Available in 3 colours: blue, white, red

### FULL PROTECT

- 6-in-1 multifunctional product
- Removes rust
- Releases stuck mechanisms
- Lubricates
- Cleans
- Eliminates moisture
- Restores oxidised contacts

### PLASTIC SHINE

- Silicone-based plastic restorer
- Restores lustre and shine
- Revives the colour of faded plastics
- Adds depth to colours
- No damage to plastic parts
- No streaks or greasy coating

### CLEANER POLISH

- Multi-surface cleaner and polish
- Cleans and polishes effortlessly, leaves no residue
- Leaves a thin protective layer
- Use without water with a microfibre cloth

### MOTO WASH

- Multi-surface cleaner
- Effortless deep degreasing
- Effective in 2 minutes
- Removes dirt without leaving streaks
- Foam effect

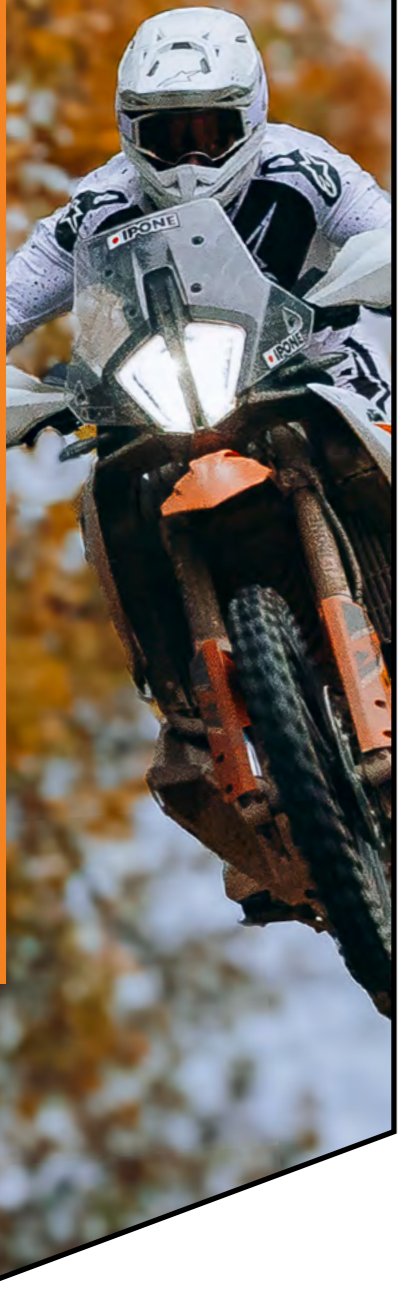

### WATERPROOF GREASE

- Mechanical grease resistant to water (even salt water)
- Prevents breakage and oxidation of parts
- Excellent adhesion to moving parts
- Ideal for bearings, joints, axles, seals and other pivots
- Long-lasting and effective over time
- White colour and pleasant texture

### CHROM'ALU

- Chrome and aluminium renovation cream with active microbeads
- Cleans, polishes and shines all metals
- Removes streaks and rust spots
- Removes light scratches
- Leaves a protective film for a long-lasting shine

## ENGINE MAINTENANCE PRODUCTS

### ENGINE CLEANER

- Engine cleaner before oil change
- Removes particles, deposits and dirt
- Makes cold starts, acceleration and pick-up easier
- Limits oil and fuel consumption

### INJECTOR CLEANER

- Injector cleaner
- Makes starting easier
- Eliminates deposits in the injection system
- Better engine torque
- Reduces exhaust smoke emissions
- Limits oil and fuel consumption

### FUEL STABILISER

- Fuel stabiliser - additive for fuel conservation
- Facilitates restarts after a long period of engine inactivity
- Preserves fuel and properties for 2 years
- Reduces maintenance costs
- Ultra practical dosing bottle

### CARBU CLEANER

- Carburettor cleaner-degreaser
- Removes deposits from the carburettor
- Reduces exhaust smoke emissions
- Reduces fuel consumption
- Powerful, precise spray

### AIR FILTER OIL SPRAY

- Air filter oil foam
- Aerosol format
- Retains water, mud, dust and sand
- Broad, even spray
- Blue colour
- Quick drying

### AIR FILTER OIL FLUID

- Air filter oil foam
- Liquid consistency for even distribution over the filter
- Retains water, mud, dust and sand
- Blue colour
- Quick drying

### AIR FILTER CLEANER

- Air filter cleaner foam
- Effectively degreases and removes impurities
- Restores maximum power
- Does not damage filters
- Easy application
- Economical format: 5L

HELMET AND EQUIPMENT CARE

Care  
LINE  
RIDER

**HELMET'IN**

- Interior helmet cleaner
- Active foam that neutralises perspiration odours
- Purifying and refreshing
- Evaporates quickly without leaving streaks
- Can be used without removing the helmet
- Practical portable format

**HELMET'OUT**

- Exterior helmet cleaner
- Removes dirt and insects from helmets and visors
- Effective on gloss and matt paints
- Drip-free
- Streak-free
- Practical portable format

**VISOR RAIN'OFF**

- Rain-repellent for visor and bubble
- Disperses water instantly
- Improves visibility for enhanced safety
- Tested in extreme rain conditions
- Drip-free
- Streak-free
- Practical portable format

**LEATHER CREAM**

- Nourishing cream to care for your leather
- Cleans and protects leather
- Suitable for all types of leather (jackets, boots, gloves, saddles and bags)
- Effective against dead insects
- Strong hold, does not run

WHEEL CARE PRODUCTS

Care  
LINE  
**WHEEL**

**BRAKE CLEANER**

- Brake degreaser-cleaner
- Removes dust from braking and clutch systems
- Reduces grinding and eliminates squealing when braking
- Dries quickly without residue

**WHEEL CLEANER**

- Quickly degreases rims without damaging them
- Compatible with all types of rims
- Comfortable trigger for wide, even distribution

**S.O.S TYRE**

- Puncture-repair spray
- Repairs and reinflates tyres in 10 seconds
- Temporary repair solution
- Compatible with all types of tyres (tube and tubeless)
- Practical portable format
